

NOTICE TO ALL PHYSICIAN ASSISTANT APPLICANTS and LICENSEES

The State Medical Board will be transitioning to a new online licensing and renewal platform beginning December 2015. The existing online system will be available until December 7th for licensees who are currently active in renewal. The new system is scheduled to go-live December 14th.

The new eLicensing system will operate in a secure web-based environment and is geared toward enhancing the licensure and renewal processes for all users. The system will provide confirmation of online fee and application submissions and will improve the ability of the Board to communicate with and guide you through the licensure and renewal process.

Over the next few weeks all licensees will be receiving log-in information from the Board. Licensees will be asked to enter the information below in order to appropriately identify your existing licensure information:

First Name

Last Name

Last 4 digits of SSN

Secure PIN (provided by Board in separate mailing)

After logging in to access your licensure information all users will be required to provide updated address and contact information. Once this is completed users will be able to apply for licenses, renew licenses, and submit service requests such as address changes and license verifications.

The Board will make every effort to make this transition as smooth as possible. Additional updates will be available on the Board's website at www.med.ohio.gov. If you have questions please email med.license@med.ohio.gov.
